AIA Florida Newsletter for emerging architects

vol 2011, issue april

Dear Michele,

Each month, AIA Florida's goal is to provide all of Florida's emerging and young architects with the most up-to-date news about what matters most.

NAC Newsletter

AIA Florida Regional Associate Director, Clarice Sollog, Assoc. AIA, LEED AP BD+C, recently announced the release of a new publication directed to Associate members across Florida. This publication is published the first Friday of each month. The April issue includes several features on mentoring, calendar events, and highlights opportunities for Associates at the AIA Convention in New Orleans in May.

Foundation Design Competition

There is just over one week left to register for the Foundation's Fourth Annual Design Competition for Emerging Professionals. With the goal to re-define the notion of the "Florida House" for the 21st century, the Florida Foundation for Architecture is embarking on a design competition program to explore the concept of integrating affordability and sustainability in the design of single family infill housing for neighborhoods and communities throughout Florida.
