Jamie Fobert, RIBA, BA(Arch), Director of Jamie Fobert Architects in 1996. Winner of the BD Individual House of the Year Award 2016 and four times the Year Award (winner 2003; shortlist 2007, 2014 and 2015), three major public commissions for cultural organizations: the new Tate St Ives, which opened in October 2017, and additions to February 2018 and Charleston House, which is due for completion later this year.

Brian co-founded engineering design practice Eckersley O’Callaghan in 2004 with James O’Callaghan. He has 30 years’ experience as a structural engineer, with an approach embedded in the collaborative process with architects. Brian’s projects are wide-ranging in innovative work in glass, plastics and carbon fibre.

Eckersley O’Callaghan is an award-winning engineering design practice with a 90-member strong team across offices in London, New York, San Francisco, Paris, and Shanghai.

Submission Guidelines

Who

Projects are eligible no matter where they are located. With the exception of the Masonry Award, the submitting architect must also be a U.S. licensed architect.

The project must have been completed within the immediate past five years; unless it is an unbuilt project or is being entered for the Test of Time Award.

When

Projects submitted may also be eligible for the People’s Choice Award.

Where

Projects are eligible for the Design Honor Awards if they are located within Florida or within the Caribbean region at the time of the project’s completion.

Why

Submission of an entry represents commitment to the advancement of the profession, with particular consideration of the people’s well-being.

Design Awards

Entry Fee: $125. A $25 late fee will be charged to each entry received after 03.23.2018
Eligibility: Must be an architect member of AIA Florida, AIA Virgin Islands or AIA Puerto Rico. Unless otherwise noted, these are the fees and eligibility for all design awards.

The Award of Excellence
Criteria: Architectural projects of all sizes and classifications are eligible, including single buildings, groups of buildings, parks and plazas, historic preservations, additions, renovations, and extended use projects. Award winners are subject to verification. Entries must be commissioned for compensation on behalf of a client and construction must not be substantially complete prior to the deadline for receipt of entries.

The Test of Time Award
Criteria: Projects must be standing in substantially completed form, in good condition, and should substantially carry out the original program for a period of no less than 25 years. Change in use is permitted when it has not significantly altered the original intent of the design. Buildings in which basic function has been modified, or has been adapted for reuse are eligible.

Sustainable Design Award
Criteria: Projects of all types and sizes are eligible to be recognized for excellence in the design of sustainable projects. This includes individual structures, building complexes and urban design projects.

Masonry Award
Criteria: Projects may be residential or commercial work, with at least 75% of the structure and exterior skin using masonry. The following masonry materials are acceptable: brick, block and stucco, architectural block i.e. split face, ground face and burnished; glass block; and stone. Projects must be within the Florida/Caribbean region and are evaluated on the technical and creative use of masonry in meeting aesthetic and functional design challenges.

Eligibility: Must be an architect member of AIA Florida, AIA Virgin Islands or AIA Puerto Rico. Unless otherwise noted, these are the fees and eligibility for all design awards.
