

Project Manager - Healthcare

Little, nationally recognized as a “Best Firm to Work For” and one of the nation’s most progressive design firms, is seeking a **Project Manager** with a passion for high quality design and a positive, collaborative work style, for our **Healthcare Studio** in our **Orlando, Florida office**.

The individual selected for this opportunity will be working with regional and national healthcare clients on projects of varying size and scope, with the opportunity to work with a team dedicated to advancing breakthrough ideas through design. The types of projects cover the full spectrum of healthcare related facilities – acute care, specialty centers, and clinics. This position will require a team member that leads with a positive attitude and has the capacity to thrive in a highly ambitious and entrepreneurial environment.

A candidate we'll love:

- You have in depth Healthcare project experience.
- You are a resourceful and creative problem solver.
- You're a good teammate – you want those around you to succeed and you're capable of taking direction or leading a project to deliver a great product to our clients.
- You're good with people – a strong listener, respectful in your interactions with others and have a positive outlook on life.
- You're a good communicator –verbally, graphically and in written form, people understand your ideas and the way you share them.
- You are organized and thorough – you understand how to work with and coordinate consulting partners and many moving parts to deliver a solid, final product.
- You have a strong understanding of design, space planning, spatial relationships and materials.
- You have a passion for sustainability.
- You have professional drive and still have fun while you work.

A position you'll love:

- You'll be working in our dedicated Healthcare studio with other professionals dedicated to Healthcare practice projects.
- You can ascertain the clients and various stakeholders' visions and key factors for project success and develop a project plan to deliver results beyond architecture.
- You'll have a high degree of autonomy and responsibility.
- Your work will include a variety of tasks and design projects.
- You'll lead teams of architects and engineers to meet project requirements, budgets and schedules.
- You'll be responsible for producing contract documents and construction administration.
- You'll be accountable for project success.
- You'll have growth opportunities.

Ideal candidates will have the following Qualifications:

- Bachelor's degree or higher in Architecture from an accredited university;
- Six to Ten years of experience in healthcare design and documentation;
- Architectural registration;
- Ability to execute projects from conceptual design to owner occupancy;
- Strong technical expertise, including knowledge of building codes;
- Strong design and Revit Skills

Our culture is energetic, curious, collaborative and open. We value people who are fun to work with and who have a positive impact on those around them. We are proud to offer outstanding benefits, compensation, and growth opportunities.

To be considered for this opportunity, please submit your resume and portfolio to:
