

Sarah Lower, AIA. LLG Architecture

Sarah is recognized as an architectural pioneer in 3D Concrete Printing (3DCP), best known for designing the first permitted and certified affordable home 3D printed in Florida. As co-founder and principal architect of LLG Architecture, she brings over 20 years experience across residential, multifamily, commercial, and coastal projects. With a master's degree in Architecture and several awards and honors, Sarah combines technical excellence with visionary leadership. Her work reflects a deep commitment to community-focused design, resilient design, and innovation.
