

Patrick Ryan O'Connell Architect, LLC is looking for an eager intern architect or architect who is looking to gain experience and have a rare opportunity to assist with design, creation, and facilitation of high-end residential architectural services in **Palm Beach, Florida**.

Our team has designed an extensive and impressive body of work in a relatively short amount of time. We are a younger architectural firm who specializes in creating unique and spectacular homes, by incorporating classical elements with modern living. We bring a fresh perspective to creative residential design with our unmatched artistic and technical abilities.

We are looking for a dynamic intern architect or architect who has excellent AutoCAD skills and is ready to jump in, join our team, and help our team create one-of-a-kind homes, and move projects throughout the architectural phases. We work in a creative and collaborative environment so interpersonal skills are important to the success of our projects.

Position Summary

Ideal candidates are architects who prepare design development drawings of residential from sketches, produce construction documents in accordance to client's wishes via AutoCAD, can modify drawings by studying changes, redrawing components, changing annotations, following redline instructions. This candidate will work closely with our existing dynamic architects and managers. Other duties as assigned.
