## Objectives

To apply my knowledge of the extensive architectural process from the beginning to end of projects, provided by my LEED-credited design-build experience, while following my passion of well-executed site-integration, including urban projects. I am hoping for a full-time role that will help guide me through the IDP process and certification.

## Education

### University of Kansas School of Architecture

Masters of Architecture

#### Studio 804

Design-Build Graduate Studio

New education building finished as of June 2012 at JCCC, Overland Park, KS

Registered and projected LEED Platinum
