

Senior Project Manager - Healthcare

Little, nationally recognized as a “Best Firm to Work For” and one of the nation’s most progressive design firms, is seeking an **Senior Architectural Project Manager** with a passion for high quality design and a positive, collaborative work style, for our **Healthcare Studio** in our **Orlando, Florida office**.

The individual selected for this opportunity will be working with regional and national healthcare clients on projects of varying size and scope, with the opportunity to work with a team dedicated to advancing breakthrough ideas through design. The types of projects cover the full spectrum of healthcare related facilities – acute care, specialty centers, and clinics. This position will require a team member that leads with a positive attitude and has the capacity to thrive in a highly ambitious and entrepreneurial environment.

A candidate we’ll love:

- You have extensive Healthcare project experience and enduring client relationships.
- You can ascertain the clients and various stakeholders’ visions and key factors for project success and develop a project plan to deliver results beyond architecture.
- You are a resourceful, collaborative and creative problem solver and are sensitive to design through all project phases
- You’re a good teammate – you want those around you to succeed and you’re capable of taking direction or leading a project to deliver a great product to our clients.
- You’re good with people – a strong listener, respectful in your interactions with others and have a positive outlook on life.
- You’re a good communicator –verbally, graphically and in written form, people understand your ideas and the way you share them.
- You are organized and thorough, inspiring confidence with clear documentation and purposeful use of resources and time.
- Mentorship is a priority to you.
- You have professional drive and still have fun while you work.

A position you’ll love:

- You’ll be leading client and user-group meetings, maintaining and growing client relationships;
- You’ll lead the multi-disciplinary design team, including internal and external consultants and construction partners in the project delivery process and producing project deliverables;
- You’ll use problem solving skills in coordination with contractors, designers, consultants, clients and end users;
- You’ll provide client services from project inception to occupancy, while mentoring other team members in their development

Requirements: Ideal candidates will have the following qualifications:

- Bachelor’s degree or higher in Architecture from an accredited university.
- 12+ years of hands-on professional architectural experience, with 8+ years experience with healthcare design and documentation;
- Architectural registration required;
- Florida AHCA experience preferred; and
- Thorough knowledge of healthcare design, detailing, codes, industry standards and trends;

Our culture is energetic, curious, collaborative and open. We value people who are fun to work with and who have a positive impact on those around them. We are proud to offer outstanding benefits, compensation, and growth opportunities.

To be considered for this opportunity, please submit your resume and portfolio to:
