

Timothy S. Aebie, AIA., NCARB.

Objective

My objective is to bring value as a Project Architect to a great firm with great vision.

Experience

Oct. 2006- Dec. 2008 Ground Floor Engineering Orlando, Florida

Vice President of Architecture

- Key in developing competitive architectural division within an Engineering Firm
 - Oversaw production and development of SD, DD, CD's here in the US and Asia.
 - Responsible for production staff of approximately 40 Architects and drafters both here in the US and Asia.
 - Project types include Hotel, Residential, Resort, Office, High rise, Banks.
 - Developed documents for projects in Trinidad, Antigua, Jamaica, Tortola, US, India, and China.
-

May 2000 Oct. 2006 The Scott Partnership Architecture Orlando, Florida

Managing Partner

- Instrumental in increasing gross fees from \$2.2 million to \$18 million in 6 years.
 - Facilitated firm growth from 2 division, 22 person to 5 division, 100 person firm, expanding to include national and international clientele.
 - Helped to develop and implement a client based business/marketing strategy as apposed to purely market based strategy.
-

May 1999- May 2000 Wakefield-Beasley Architects Atlanta, Ga.

Project manager

- Managed construction documents for several small to medium sized projects.
Worked closely with department head with regards to project delivery, Construction documents, CA and Budgeting.

Education

1998–2000 Georgia Institute of Technology Atlanta, Ga.

Masters Degree in Architecture

- Graduated Magna cum laude
 - Focused on work with Composite Materials in Architecture
 - Nix Mann Fellowship
-

1994–1998 University of Florida Gainesville, Fl.

Bachelor of Design Degree

- Graduated Summa cum laude
