

Project Designer (Intermediate Level)

Award winning architecture firm in Miami seeking talented, organized and detailed oriented Intermediate Designer for high-end residential, retail, commercial and mixed-use work. Ideal candidate must possess strong communication, ability to coordinate with consultants and multi-disciplinary team, and have graphic abilities. Must be willing to be a part of a team that would be tasked with developing concept design drawings all the way through to detailed construction document sets. Salary commensurate with experience.

Desired Skills and Qualifications:

- Minimum 5 years of professional experience in Architecture
- Bachelor's Degree; B Arch or M Arch desired
- LEED knowledgeable - Accreditation a plus
- Building Code Compliance knowledge
- Ability to produce Construction Documentation sets
- Previous experience working on projects in all phases of design
- Strong Revit skills – a must
- Proficient in AutoCAD
- Demonstrated knowledge of Photoshop, Illustrator, InDesign, Rhino or 3DS Max desired
- Proficiency in Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)
- Ability to work on multiple projects and competing deadlines
- Capable to work independently
