

Upcoming Infrastructure Projects in Latin America

Webinar Series

April 26-November 15, 2018

The U.S. Commercial Service have organized a Webinar Series focuses on upcoming infrastructure projects in Latin America announced by different governments in the region to stimulate their economies. These projects represent a fantastic opportunity for U.S. Companies in different sector from architectures services, engineering services, construction equipment, building products, airports, ports, transportation, housing, environmental technologies, ICT, safety/security, healthcare and energy.

You will hear from U.S. Commercial Diplomats, local Government Officials and private sector experts to help you craft a market entry strategy.

Markets to include: Argentina, Uruguay, Colombia, Peru, Panama, Brazil, Chile, Mexico, the Caribbean and Central America Regions.

Take advantage of this great opportunity and learn about:

- Upcoming projects in the region
- Procurement needs and licensure and registration requirements in different countries
- Trade barriers and market access issues
- U.S. Government international trade contacts to support your international sales growth

Your Organization can participate in one, two or all eight Webinars. The cost for each Webinar is just \$40 and for the entire series it is only \$200.

Join the U.S. Department of Commerce Trade Americas and Design & Construction Global Teams for this Webinar Series to learn more about these great opportunities and how to be part of any of the upcoming infrastructure projects in Latin America.

Webinar Series Schedule:

1. Argentina – April 26, 2018
2. Colombia/Perú/Panama – May 17, 2018
3. Chile – June 14, 2018
4. Central America – July 19, 2018
