

Senior Project Architect, Healthcare

Little, nationally recognized as a “Best Firm to Work For” and one of the nation’s most progressive design firms, is seeking a **Senior Project Architect** with a passion impacting lives, for high quality healthcare design and a positive, collaborative work style, for our expanding **Healthcare Studio** in our **Orlando Office**.

The individual selected for this opportunity will be working with regional and national healthcare clients on projects of varying size and scope, with the opportunity to work with a team dedicated to advancing breakthrough ideas through design. The types of projects can cover the full spectrum of healthcare related facilities – Acute Care/specialty centers and clinics. This position will require a team member that leads with a positive attitude and has the capacity to thrive in a highly ambitious and entrepreneurial environment.

Responsibilities Include:

- Lead the preparation of documents by the design team for obtaining all required state and local permits. Lead execution of subsequent agency reviews;
- Lead the coordination of the design team;
- Lead the coordination of internal and external consultants;
- Lead the coordination of medical equipment and building systems;
- Apply problem solving skills in coordination with contractors, designers, consultants, clients and end users;
- Manage the preparation of specifications;
- Provide construction administration services;
- Provide quality control; and
- Mentor other team members in their development.

Ideal candidates will possess the following qualifications:

- 12+ years of hands-on experience with Acute Care design and documentation;
- Architectural license required;
- Strong Autodesk Revit proficiency;
- Thorough knowledge of architectural design, detailing, codes, and building material characteristics;
- Thorough understanding of industry standards and building codes, including MEP design and medical equipment requirements;
- Ability to collaborate with multiple team members, consultant groups and stakeholders;
- Ability to understand the client and various stakeholders’ vision and key factors for project success;
- Ability to travel as projects require;
- High level of leadership skills, as well as clear and effective communication skills; and
- AHCA experience preferred.

Our culture is energetic, curious, collaborative and open. We value people who are fun to work with and who have a positive impact on those around them. We are proud to offer outstanding benefits, compensation, and growth opportunities. We are committed to creating a better world through sustainable, resilient & regenerative design and we welcome people with similar experience and/or passions.
