

# ORLANDO HEALTH®

## **Position Summary**

Orlando Health's Asset Strategy team is seeking an Architectural Design - Senior PM to join the newly established Planning & Design Studio. As an Architectural Design Sr. PM, your responsibilities will focus on the initial stages of the project inception, programming and design process. This will include coordination of pre-development due diligence, feasibility reviews, programming and departmental test fits, development of standards and guidelines, architectural design reviews, and conducting post occupancy evaluations and research. This exciting and challenging position will integrate all aspects of project pre-planning and design management to enhance Orlando Health's unique brand architecture while integrating state of the art technology, sustainability and resiliency strategies.

## **Education/Training**

Bachelor's degree in building construction, architecture, engineering. Advanced degree in Architecture or Engineering is preferred.

## **Licensure/Certification**

Certification/Licensure of AIA, NCIDQ or PE required.

## **Experience**

10+ years relevant work experience in healthcare industries including architecture.

\*Candidates with Healthcare Design Experience highly preferred\*

## **Essential Functions**

- Reports to the Senior Director, Planning & Design and has responsibility for special project assignments, concept design development and research initiatives as assigned.
- Responsible for the development of Corporate Standards for Architecture, signage & wayfinding, corporate branding, and assists with the placement and special requirements of medical equipment and FFE for the Orlando Health system.
- Responsible for reviewing plans developed by the Facility Development project implementation team to ensure conformance with Orlando Health corporate design standards.
- Responsible for developing & establishing sustainable initiatives established on evidence base practices.
- Evaluates, selects, and applies standard architectural/design/engineering/code compliance considerations, procedures, and standards.
- Conducts reviews of design drawings submitted by Architect/Engineers/Interior Designers/Medical Equipment Planners and advises them of requirements and final review decisions.
- Evaluate and recommend design and engineering consultants for each project.

- Oversee design, implementation and certification of life safety and life support systems impacting design.
- Interact with local, state and federal regulatory agencies.
- Contributes to the successful regulatory approvals from agencies having jurisdictions for all projects assigned.
- Works closely with Orlando Health Supply Chain sourcing team to ensure alignment with group purchasing program opportunities and other corporate bulk purchasing agreements.
- Meet with hospital executive directors, administration, and department heads as necessary for project success.
- Develop and manage relationships with leadership personnel and ensure results are achieved and customer requirements are met.
- Responsible for the maintenance and development of guidelines associated with service line project typology, layout, design, and alignment with industry best practices.
- Evaluates value engineering proposals and makes recommendations based on performance and OH quality standards.
- Maintains reasonably regular, punctual attendance consistent with Orlando Health policies, the ADA, FMLA and other federal, state, and local standards.
- Maintains compliance with all Orlando Health policies and procedures.

Orlando Health is one of Florida's most comprehensive private, not-for-profit healthcare systems providing access to nearly two million Central Florida residents and has provided care for more than 4,600 international visitors annually. Our physician practices, diagnostic centers, hospitals and advanced medical treatments and procedures, along with our highly qualified team of medical specialists, have distinguished Orlando Health as a healthcare leader. We are one of Central Florida's largest employers with more than 23,000 employees and nearly 4,000 affiliated physicians supporting our philosophy of providing a continuum of care that revolves around patients' needs. As a leading healthcare resource, providing world-class medical care as well as training our future healthcare providers, Orlando Health will continue to foster growth and development throughout the region for generations to come. We are looking for talented individuals to be part of our team.
