

LIMINAL SPACES: BRIDGING THE GAP

AIA FLORIDA 2023 CONVENTION | JULY 26-30, 2023

HYATT REGENCY GRAND CYPRESS - ORLANDO

PRESIDENT'S MESSAGE

IT IS AN HONOR TO INVITE YOU TO THE 2023 AIA FLORIDA CONVENTION & TRADE SHOW, COMING TO THE HYATT REGENCY GRAND CYPRESS IN ORLANDO, JULY 26-30, 2023! OUR THEME THIS YEAR IS LIMINAL SPACES – BRIDGING THE GAP.

Liminal space is a place between what was and what is yet to come. It is not a place of certainty, but one of transformation and at its edge lies possibility, potential and prosperity.

This year's convention committee carefully crafted a dynamic agenda filled

with educational sessions, workshops, tours and more to provide valuable insight into how we, as architects and design professionals, can set the course for the future of our profession "bridging the gap" for many issues at the forefront of our practice.

The kickoff speaker is former University of Florida Athletic Director Jeremy Foley, who will emphasize the importance of cultivating culture to create opportunities for success. Also in the lineup is David Zach, a futurist, who will talk about finding clarity and connection in these uncertain times. Gerald Creadon, executive vice president at Jabil, will highlight the implications of digital transformation in a global market and trends impacting the future of design. Be ready to hear about artificial intelligence for architects from Daniel Bolojan and Joseph Choma, both from the school of architecture at Florida Atlantic University. In addition, Barbara White Bryson will touch on how to prepare for these changes in the profession.

The agenda also has several sessions on better design, including how to design for people living with mental illness and dementia; designs to withstand hurricanes and storms beyond wind; and informative sessions on the value of architecture, succession planning and generational differences in the workplace. Programming embracing new and emerging professionals promoting

opportunities for deep engagement within the profession are also included.

From ARE preparation to applying for Fellowship, this year's convention has several events that will help design professionals enhance their careers, including: the Women in Architecture Breakfast, Young Architects and Associates Awards Submission Workshop, ARE Training, Navigating Your Career Journey, fellowship application review, and so much more!

Finally, the convention would not be complete without traditional events such as the President's Welcome Reception, Drink and Draw!, Trade Show, design awards, associates social hour, exciting tours and the fun yet competitive golf tournament!

Plan to attend this year's convention and trade show on July 26-30 and leave inspired and motivated to embrace the exhilarating potential for our profession in this unique place in time.

A stylized, handwritten signature in black ink, followed by a long horizontal line.

**Beverly Frank, AIA
2023 AIA Florida President**

“LIMINAL SPACE, OR A PLACE BETWEEN WHAT WAS AND WHAT IS YET TO COME, IS NOT A PLACE OF CERTAINTY, BUT ONE OF TRANSFORMATION.”

-BEVERLY FRANK, AIA

KEYNOTE SPEAKERS

JEREMY N. FOLEY, ATHLETIC DIRECTOR EMERITUS, UNIVERSITY OF FLORIDA

Jeremy N. Foley is the athletic director emeritus at the University of Florida. From 1992 to 2016, he handled virtually every aspect of the university's \$119.3 million athletic program in a career which began with an internship in the Gator Ticket Office in 1976. During his tenure, the university invested \$397 million in projects he spearheaded, including the expansion of the O'Connell Center and an indoor football practice facility. He also outlined a \$100 million master facility plan.

Foley is the only athletic director in Division I history to supervise a program that won multiple national titles in football (1996, 2006, 2008) and men's basketball (2006, 2007). Overall, 27 UF teams were crowned national champions on his watch.

What does effective, inspiring leadership look like in an era of accelerated change? In his keynote address, Foley will share his winning formula in the context of building dynamic teams to position the architecture profession to evolve and thrive into the future.

DAVID ZACH - FUTURIST

"I can't predict the future," says David Zach, "but knew you might have wondered." David Zach is one of the few professionally trained futurists on the planet. He holds an M.S. in futures research from University of Houston-Clear Lake, as well as a B.A. in political science from University of Wisconsin. His meta perspective encompassing design, aesthetics, emotional IQ, artificial intelligence and more has surprised and challenged diverse audiences for over four decades.

Zach has given over 1,500 keynote presentations, including more than 50 with AIA and AIAS audiences. His goal is to inspire others to be more curious, humble, and communicative with anyone on the other side of the issue – or even on the other side of the table.

Zach says, "The divorcing of the generations and segregating them into their own self-referential worlds feeds our ignorance and arrogance." Whether he is connecting generations, fields of research, or theoretical frameworks, his discussions bridge the gap - making him a perfect fit for this forum.

Zach's first session, "Finding Clarity and Connection in Uncertain Times," touches on artificial intelligence, algorithms and automation. His second session, on sharpening presentation skills, inspires us to "think in 360 degrees" to facilitate a true exchange of understanding.

GERALD J.J. CREADON, EXECUTIVE VICE PRESIDENT, OPERATIONS AT JABIL

Gerald Creadon is an accomplished senior executive in the high-tech global manufacturing services industry. He holds an MBA from the University of Florida Warrington College of Business and has over 20 years of experience managing operations, factory profits and losses, and Fortune 100 customer relationships. His experience managing international business spans the United States, China, Brazil, Mexico, Southeast Asia and Europe. He brings extensive expertise on global macro trends and their impact on the real estate market, building design, the manufacturing supply chain, emerging automation, digital technologies, and the role of technology in designing for the future.

Creadon's presentation, "Implications for Design in a Global Market: Industry Perspective on Trends Impacting Industrial and Office Space" will help us consider what optimal design looks like in this era of change and disruption, paying special attention to technology, clean energy, and more.

DR. JOSEPH CHOMA, PH.D.

Dr. Joseph Choma, Ph.D., is director of the School of Architecture and professor of architecture at Florida Atlantic University. Choma is founder and director of the Design Topology Lab, an interdisciplinary practice which conducts design research and consults on material innovation, unconventional means and methods of construction, and the role of geometry in the built environment. His topics of exploration include foldable structures and materials, lightweight deployable shelters, ultra-thin formwork for concrete casting, stay-in-place formwork for shell structures and concrete slabs and advancements in natural fiber textiles. As a researcher, he uses mathematics, folding, structure and materials as generative design devices to imagine new ways to design and build more sustainably.

Choma and co-presenter Daniel Bolojan will showcase an undergraduate design studio at Florida Atlantic University School of Architecture, where students fashioned provocative building designs using machine learning to interpolate three-dimensional data sets into self-organizing maps. In the realm of material intelligence, Choma will demonstrate how innovative construction can reduce the carbon footprint, spotlighting, in particular, techniques using ultra-thin folded paper formwork for concrete casting.

DANIEL BOLOJAN

Daniel Bolojan is an assistant professor at Florida Atlantic University focusing on the application of computational design and deep learning strategies in architecture and the architectural design process. Over the years, he has taught several design studios and seminars at the Institute of Structure and Design-University of Innsbruck and Florida International University-Miami and conducted numerous international workshops and conference workshops, dealing with the application of complex systems and neural networks in architectural design. He brings expertise to the examination of how artificial intelligence is evolving how we teach, design, and build.

Bolojan will address the impacts of artificial intelligence on architecture theory, design and structure. He will spotlight the dialogue between academic research and professional practice, tapping his experience providing cutting-edge consulting for international offices such as Coop Himmelb(l)au and Zaha Hadid Architects.

MICHELE A. RUSSO, LEED AP

Michele Russo is the vice president of research & practice at the American Institute of Architects where she is responsible for advancing architectural practice including the research and data necessary to help businesses thrive and professionals advance in their careers. In this role, she oversees the delivery of programs, products, tools, and resources to support the goals of member and firm prosperity. She is a frequent presenter providing insights on economic, firm, and disruptive trends affecting the ability for architectural firms and professionals to navigate current and future conditions. Russo previously worked for Dodge Data & Analytics where she ran its SmartMarket market research program providing data and intelligence on AEC industry trends, most notably sustainable design and construction, technology, and workforce.

Russo will discuss the economic outlook and what we should be watching to track the economy. She will also cover what trends and pressures are facing the profession—and industry—over the next 18 months, including emerging developments that will shape the future.

SCHEDULE OF EVENTS

WEDNESDAY, JULY 26, 2023

10 a.m.-5 p.m. Registration Desk Open

1-4 p.m. Annual Meeting

THURSDAY, JULY 27, 2023

8 a.m.-5 p.m. Registration Desk Open

8:30-10:30 a.m. Welcome from Orlando Mayor

Buddy Dyer and Kickoff: Working as a Team

10:45-11:45 a.m. Session B: Keynote: Finding Clarity & Connection in Uncertain Times

12-1:30 p.m. Session C: Optional Lunch Session: High Velocity Hurricane Zone Glass Door Solutions

1-3 p.m. Tour: Winter Park Library

1:45-2:45 p.m. Session D: Economic Update

1:45-2:45 p.m. Session E: Design for the Sameness in Difference: Lessons for Everyone

3-4 p.m. Session F: Economic Update (repeat of Session D)

3-4 p.m. Session G: Being Ethical is Harder Than You Think

4:15-5:15 p.m. Session H: Being Ethical is Harder Than You Think (repeat of Session G)

4:15-5:15 p.m. Session I: Preparing for Changes in the Profession

5:30-7 p.m. President's Welcome Reception

7-8 p.m. Emerging Professionals Social Hour (Invitation only)

7-9:30 p.m. Fellows' Dinner (Invitation only)

FRIDAY, JULY 28, 2023

6:30 a.m.-5 p.m. Registration Desk Open

7-8 a.m. Session J: Early Bird: Breathable Floor Coatings

7-8 a.m. Early Bird Session: Proactive Fenestration Mitigation

7-8 a.m. Women in Architecture Breakfast: Leadership Endurance

8 a.m.-12 p.m. Tour: Masonry Hands on Training - Cavity Wall in Detail

8 a.m.-1 p.m. Euro-Wall Golf Tournament

8:15-9:30 a.m. Session K: Keynote: Implications for Design in a Global Market

9:30-10:30 a.m. Session L: The Value of Architecture from an Owner's Perspective

10:40-11:40 a.m. Session M: Succession Planning

10:40-11:40 a.m. Session N: Today's Multigenerational Workforce: Inclusion, Communication and Engagement

11:50 a.m.-1 p.m. Session O: Optional Lunch Session: Embodied Carbon and Adaptive Reuse

11:50 a.m.-1 p.m. Session P: Young Architects and Associates Award Submission Workshop

1-3 p.m. Tour: Dr. Phillips Center for Performing Arts

1:10-2:10 p.m. Session Q: Presentation Skills

1:10-2:10 p.m. Session R: BAM-Making a Difference

2-6:30 p.m. Trade Show

6:30-8:30 p.m. Drink & Draw! with Salsa Dancing

7:30-8:30 p.m. Alumni & NOMA Receptions

SATURDAY, JULY 29, 2023

6:30 a.m.-5 p.m. Registration Desk Open

7-8 a.m. Session S: Early Bird: Think Brick! Design Solutions in Clay You Never Thought Possible

7:30-8:15 a.m. Past Presidents' Breakfast (Invitation Only)

8:15-9:45 a.m. Session T: Keynote: The Future is Now: How AI is Shaping the Practice of Architecture

9:55-10:55 a.m. Session U: Citizen Architecture: There's Always a Way!

9:55-10:55 a.m. Session V: Addressing the Challenges Associated with Sustainable and Resilient Design

10:15 a.m.-3:30 p.m. ARE Training

11:10 a.m.-12:40 p.m. Session W: Optional

Lunch Session: Masonry Roundtable Industry Issues

11:10 a.m.-12:40 p.m. Session X: Pay it Forward: The Benefits of Mentorship at All Ages

12:45-1:45 p.m. Florida Foundation for Architecture Lunch Meeting (Invitation Only)

12:55-1:55 p.m. Session Y: Navigating Your Career Journey

12:55-1:55 p.m. Session Z: Role of the Architect in Slip, Trip and Fall Accidents

1-4 p.m. Tour: Historic Leu House

2:20-3:50 p.m. Session AA: Hurricane Impacts: Lessons Learned

4-5:30 p.m. Session BB: A Conversation on Bridging the Gap Between Education & Practice

4-5:30 p.m. Sumi-e and Sake Social Hour

6-9 p.m. Design & Honor Awards Reception & Presentation

SUNDAY, JULY 30, 2023

6:30-10 a.m. Registration Desk Open

7:20-8:20 p.m. Session CC: Early Bird: Accommodating Shrinkage in Multi-story Wood Frame Structures

8:30-10 a.m. Session DD: Awards Panel Discussion

8:30-10 a.m. Session EE: Demystifying the Fellowship & Application Review Workshop

10:15 a.m.-12:15 p.m. Session FF: Advanced FBC: 7th Edition (2020) – Five Walls of FBC - Guide to Fire Resistance and Fire Protection

Designates concurrent sessions. Please select only one when registering.

ATTENTION EMERGING PROFESSIONALS

The AIA Florida Convention Committee built an agenda full of great sessions and events for emerging professionals (EPs) to attend. Best of all, associate AIA members and professionals licensed 10 years or fewer enjoy a reduced registration rate.

Here are some sessions designed with the associate and young architect in mind:

- Kickoff: Working as a Team.
- Keynote: Finding Clarity & Connection in Uncertain Times.
- Keynote: Implications for Design in a Global Market.
- Generational Differences - Bridging the Gap.
- ARE Training.
- Young Architects and Associates Award Submission Workshop.
- Navigating Your Career Journey.
- Preparing for Changes in the Profession.
- BAM-Making a Difference.
- Presentation Skills.
- AI for Architects.

FLORIDA FOUNDATION FOR ARCHITECTURE ANNUAL RAFFLE

The Florida Foundation for Architecture annual raffle is back at The Hyatt Regency Grand Cypress. Proceeds will benefit the Architecture in Education program. The foundation's Architecture in Education program has paired architects with fourth- and fifth-grade students since its inception in 2015 to enrich the existing STEAM curriculum during classroom hours. Programs have been held throughout the state of Florida. With your support, the foundation's goal is to increase participation across the state. Be sure to purchase your raffle tickets at the AIA Florida

Logo Store before the drawing on Saturday, July 29.

CE CREDIT

This year's convention features more than 35 hours of continuing education credits from which to choose. All convention continuing education credits have been submitted to AIA CES for approval.

2023 ANNUAL CONVENTION COMMITTEE

A huge thank you to the very talented group of architects and associates that, without their hard work and dedication, this event would not be possible.

President:

Beverly Frank, AIA

Chair:

Kelly Wieczorek, AIA

Consultants:

Rhonda Hammond, AIA

Joyce Owens, FAIA

Steve Panzarino, AIA

Ignacio Reyes, FAIA

Local Advisors:

Bill Hercules, FAIA

Nathan Butler, FAIA

Michael Compton, AIA

Tour Liaisons:

Holly Stenger, AIA

Jacki Hale, FAIA

School Liaison:

Dr. Joseph Choma, Ph.D.

Associates:

Yoselim Bravo, Assoc. AIA

Shadia Jaramillo, Assoc. AIA

At Large:

David Corban, AIA

Jason Hagopian, AIA

David Hugglestone, AIA

Marjorie Weibe-Reed, AIA

Betsy Yankopolus, AIA

Thursday, July 27, 2023

Session A: Welcome from Orlando Mayor Buddy Dyer and Kickoff: Working as a Team | 1.5 LU | 8:30-10:30 a.m.

As the athletic director at the University of Florida from 1992 to 2016, Jeremy N. Foley oversaw every aspect of the university's athletic program and spearheaded a number of capital improvement projects. Under his leadership, Gator teams won a total of 27 national championships. Hear his winning formula as he kicks off the 2023 AIA Florida Convention & Trade Show. Foley will speak in the context of building dynamic teams to position the architecture profession to evolve and thrive into the future.

Speaker: Jeremy Foley, athletic director emeritus, University of Florida

Session B: Keynote: Finding Clarity & Connection in Uncertain Times | 1 LU | 10:45-11:45 a.m.

We find ourselves in a sort of fog of progress, with rapid change, distracted attention and constant disruption making decisions about the future too full of risk. When finding yourself in a fog, slow down. Look around. Be more curious about what's close at hand. Look for things that don't change before you try to predict the next change. And look for connections and continuities. Steve Jobs said, "Creativity is just about connecting the dots." A lot of people aren't very creative because they don't have enough dots to connect. This course will explore why our future depends upon finding more of the unexpected connections. If you connect enough seemingly disparate dots, new patterns and professions will emerge. This presentation will focus on what's missing from the lives and work of architects and will broach the topics of AI, algorithms, and automation...and will provide some unexpected reasons why some of you should be worried...

Speaker: David Zach, futurist

Session C: Optional Lunch Session: High Velocity Hurricane Zone Glass Door Solutions | 1 HSW | 12-1:30 p.m.

High Velocity Hurricane Zone Glass Door Solutions will provide an in-depth overview of frameless impact and non-impact doors for commercial

applications in the U.S. coastal regions. Topics will include structural engineered glass, hurricane design trends with glass doors and options to meet ADA, egress, and local jurisdiction requirements.

Speakers: Jason Quimby and Connor Leahy, SlimpactSky-Frame and ASSA ABLÖY

Session D: Economic Update | 1 LU | 1:45-2:45 p.m.

As we move beyond the height of the pandemic, some trends have taken hold while others have returned to pre-pandemic status. At the same time, many outside factors are influencing our economy. What is the economic outlook and what should we be watching to track the economy? What trends and pressures are facing the profession—and industry—over the next 18 months? What emerging developments will shape the future? Hear the latest data and insights on how these cutting-edge trends may be impacting our lives, our membership, and society at large.

Speaker: Michele A. Russo, LEED AP, vice president of research & practice, American Institute of Architects

Session E: Design for the Sameness in Difference: Lessons for Everyone from Working with People Living with Mental Illness and Dementia | 1 HSW | 1:45-2:45 p.m.

More than ever, architects and designers are better equipped with research, experience and a common fund of clinical and environmental best practices as a basis for designing more supportive environments for people who are living with the challenges of mental illness or dementia. A mature reflection on that growing body of evidence and experience suggests, however, that a primary focus on the particular needs of people living with these challenges can create its own environmental difficulties for the very people we are trying to care for; that an emphasis on the common basic human needs shared by all people form a more stable platform for designing successful care environments. The presenters, a physician-architect with clinical design experience supporting people living with dementia and a seasoned architect with broad experience designing for special populations, will share what they have learned from practice and research about repositioning the primary drivers for design for special populations – and by extension

what we all might learn to create environments supportive for human beings of any level of ability.

Speakers: Francis (Frank) Pitts, FAIA, principal, Architecture+; Dr. Diana Anderson, Dohitect

Session F: Economic Update (repeat of Session D) | 1 LU | 3-4 p.m.

As we move beyond the height of the pandemic, some trends have taken hold while others have returned to pre-pandemic status. At the same time, many outside factors are influencing our economy. What is the economic outlook and what should we be watching to track the economy? What trends and pressures are facing the profession—and industry—over the next 18 months? What emerging developments will shape the future? Hear the latest data and insights on how these cutting-edge trends may be impacting our lives, our membership, and society at large.

Speaker: Michele A. Russo, LEED AP, vice president of research & practice, American Institute of Architects

Session G: Being Ethical is Harder Than You Think | 1 LU | 3-4 p.m.

In this completely interactive exercise, participants will learn how their mind will alter and transform facts and situations in order to achieve personal desires over organizational goals. These transformations occur automatically in the subconscious mind and without establishing proactive methods to mitigate these processes, organizations may inadvertently be promoting unethical behaviors by their leaders and employees. After this course, participants will be better able to understand how to identify the slippery slope and implement strategies to guard against it.

Speaker: Bret Hood, 21st Century Learning & Consulting LLC & JLI leadership trainer

Session H: Being Ethical is Harder Than You Think (Repeat of Session G) | 1 LU | 4:15-5:15 p.m.

In this completely interactive exercise, participants will learn how their mind will alter and transform facts and situations in order to achieve personal desires over organizational goals. These transformations occur automatically in the subconscious mind and without establishing proactive methods to mitigate these processes, organizations may inadvertently be promoting

unethical behaviors by their leaders and employees. After this course, participants will be better able to understand how to identify the slippery slope and implement strategies to guard against it.

Speaker: Bret Hood, 21st Century Learning & Consulting LLC & JLI leadership trainer

Session I: Preparing for Changes in the Profession | 1 LU 4:15-5:15 p.m.

This session will explore the “*Twenty Freight Trains of Disruption*” as discussed in the presenter’s book, *Creating a Culture of Predictable Outcomes: How Leadership, Collaboration and Decision-Making Drive Architecture and Construction*. Barbara White Bryson, FAIA, ED.D, MBA will share how industry professionals can prepare for disruption and how project owners should think about engaging new methods and technologies for their projects.

Speaker: Barbara White Bryson, FAIA, ED.D, MBA, Bryson Breakthrough Strategies

Friday, July 28, 2023

Session J: Early Bird: Breathable Floor Coatings 1 HSW | 7-8 a.m.

This program provides an overview of moisture vapor emissions (MVE) and resinous flooring including causes of MVE, testing methods, issues and failures and solutions for moisture remediation. Emphasis is on advantages of breathable systems.

Speaker: Glenn Remler, CSI, ACT, architectural, account executive, Sherwin Williams

Early Bird Session: Proactive Fenestration Mitigation | 1 HSW | 7-8 a.m.

This class will cover the hurricane probabilities based on statistics given by the Weather Channel. Detailed explanations between the different types and strengths of glass will be discussed along with the window and door test requirements within the building codes. There are many different myths about how to protect your home and family that will be either confirmed or debunked.

Speaker: Chris Morgan, architectural sales representative, PGT Innovations

Session K: Keynote: Implications for Design in a Global Market: Industry Perspective on Trends Impacting Industrial

and Office Space | 1 HSW | 8:15-9:30 a.m.

From emerging automation and digital technologies to decarbonization and a global push to achieve net zero emissions, Gerald Creadon, executive vice president of operations for Jabil will outline and explore the macro trends influencing the global real estate market and building designs of the future. As a global manufacturing solutions provider serving the world’s top brands, he will share details of how these trends are influencing our global footprint. He will also share perspective of what optimal design looks like as we consider the role technology and clean energy will play in the future of design.

Speaker: Gerald Creadon, executive vice president of operations, Jabil

Session L: The Value of Architecture from an Owner’s Perspective 1 LU | 9:30-10:30 a.m.

A panel discussion providing insight from several owners and revealing what it takes to be a successful design firm. This presentation from three panelists will focus on what’s needed to get that first job with a new client, what defines a successful team and how to focus on a quality set of documents to support a successful project implementation.

Speakers: Cydney McGlothlin, AIA, univ. architect, University of Florida; Allison Muth, regional manager construction, Medxcel

Session M: Succession Planning 1 LU | 10:40-11:40 a.m.

Succession planning is the process of identifying and developing new leaders who can take over key roles in the organization when current leaders retire, move on to new opportunities, or are no longer able to perform their duties. In architecture firms, succession planning is particularly important because the leadership and expertise of key individuals can have a significant impact on the success of the firm. The loss of a key leader can disrupt the firm’s operations, harm its reputation, and negatively impact its bottom line. The presenters will discuss what architecture firms can do to ensure a smooth transition of leadership.

Speakers: Todd Sweet, AIA, Sweet Sparkman Architecture and Interiors; Michael Halfants, FAIA, design principal, Halfants + Pichette Architects; Arthur Thompson, AIA, principal, SMRT

Session N: Today’s Multigenerational Workforce: Inclusion, Communication and Engagement | 1 LU | 10:40-11:40 a.m.

The world will change more in the next 20 years than it has in the past 2000. By 2025, over 25% of the workforce is projected to be nearing what was once considered retirement age. What used to signify closure, often now signifies renewal.

Workplaces have five different generations, AI and advanced technology working side by side. Diversity today transcends background and translates into roles, skill sets, expectations, and perspectives. As in most things, the better we understand, communicate, and engage with each other the better we are able to reach success together!

Speaker: Tara Blythe, SPHR, chief people officer, Infotech, Inc.

Session O: Optional Lunch Session: Embodied Carbon and Adaptive Reuse: A Sustainability Win and a Case Study 1 HSW | 11:50 a.m.-1 p.m.

Reducing the carbon emissions associated with producing our built environment (“embodied carbon”) is critical to ensuring that we protect our planet for generations to come. Adaptive reuse and historic renovation projects are one way that architects and structural engineers can potentially dramatically reduce the embodied carbon of projects for a “sustainability win.” These projects come with challenges and limitations but also can yield great benefits to end users. Asking the right questions and doing careful field evaluations at the start of these projects and throughout the design process – and understanding the tools available to our team – makes it possible for design teams to overcome the challenges of using an existing space for new purposes while reducing embodied carbon. Creativity will enable our profession to find success as we seek to use what we already have rather than “building new” on green-field sites.

Speaker: Brian McSweeney, PE, SE, FBRSE, senior project manager & Florida office director with Ehlert-Bryan, Inc. and add Jamese Spears, principal, TLC Engineering Solution

Session P: Young Architects and Associates Award Submission Workshop 1 LU | 11:50 a.m.-1 p.m.

This workshop is for anyone interested in applying

CONTINUING EDUCATION

for the AIA National Young Architects Award or the AIA National Associates Award. Attendees can bring their own lunch and will discuss the process and challenges candidates encounter when preparing submissions.

Speakers: Jeff Huber, FAIA, ASLA, LEED AP, NCARB, principal at Brooks+Scarpa; Rebecca Talbert, AIA, LEED BD+C, GGP, GPCP, project manager, RLF Architecture Engineering Interiors; John J. Clark, AIA, NCARB, South Florida Community Land Trust; Melissa Daniel, Assoc. AIA, project manager, Baltimore City Public Schools

Session Q: Presentation Skills

1 LU | 1:10-2:10 p.m.

It's been said that most people would rather die than speak in public. If you can think and speak on your feet, you have an exceptional advantage over most people and your co-workers and clients will take notice. Learning presentation skills will help to facilitate a true exchange of ideas, eliminate weak and misinformed ideas, build trust, and accelerate progress.

Speaker: David Zach, futurist

Session R: BAM - Making a Difference

1 LU | 1:10-2:10 p.m.

Of the approximately 122,000 architects in the United States, less than 2,500 identify as Black Americans. This includes only 566 female architects. Needless to say, these statistics highlight a disparity in the percentage of Black architects in the country and raise the question about diversity in the profession. The Black Architect in the Making (BAM) program recognizes this disparity and takes action. BAM works with schools and other similar organizations to invite architects to communities where primarily Black families live, learn, work, and play to introduce them to the profession in a memorable way.

Speaker: Craig Aquart, AIA, NOMA, CSI, M.C. Harry and Associates, Inc.

Saturday, July 29, 2023

Session S: Early Bird: Think Brick! Design Solutions in Clay You Never Thought Possible | 1 HSW 7-8 a.m.

Celebrate the history and evolution of brick use around the world. Explore purposes of brick as a thin unit, full bed unit, structural unit, and paver. Explore various brick wall systems including

paneled, curtain wall, and perforated wall. Consider brick as solutions for sustainability, resiliency, and safety. Discover creative ways to incorporate sizes, textures, shapes, and patterns. Watch masons use augmented reality assistance to accurately install parametric walls.

Session T: Keynote: The Future is Now: How AI is Shaping the Practice of Architecture | 1 HSW | 8:15-9:45 a.m.

How will AI transform the practice of architecture? This presentation examines the potential impact of AI on how we teach, design and build. The presenters showcase an undergraduate design studio at FAU School of Architecture, where students used machine learning to interpolate 3D datasets into self-organizing maps resulting in provocative building designs. Additionally, the dialogue between academic research and professional practice is conveyed in the cutting-edge consulting work of Daniel Bolojan for international offices such as Coop Himmelb(l)au and Zaha Hadid Architects. Moving into material intelligence, Dr. Joseph Choma demonstrates how innovative means and methods of construction can reduce the carbon footprint of how we build. Special techniques for using ultra-thin folded paper formwork for concrete casting will be presented. AI is a powerful tool and collaborator for architects. The future is now.

Speakers: Daniel Bolojan, assistant professor, Florida Atlantic University; Dr. Joseph Choma, Ph.D. director and professor, Florida Atlantic University

Session U: Citizen Architecture: There's Always a Way! | 1 HSW | 9:55-10:55 a.m.

We all have opportunities to be "citizen architects." We are uniquely positioned to assist in building projects to their best potential, garnering consensus and advocacy for excellent meaningful design—transcending scale or socioeconomic status. Working from a small rural town in Mississippi, Belinda Stewart's work demonstrates how architects can authentically create, strengthen, and repurpose places. Her firm's efforts also enable communities to embrace their uniqueness, tell their stories and protect, enhance, and improve their built environment and quality of life. As mayor of the Village of Walthall, Mississippi for 25+ years and through other local and regional leadership roles, Stewart has helped her small community to survive

and grow. There's always a way to help clients and communities with transformational dreams—seeking and paving a way where the opportunity may not otherwise exist.

Speaker: Belinda Stewart, FAIA, principal, Belinda Stewart Architects

Session V: Addressing the Challenges Associated with Sustainable and Resilient Design in Florida's Warm, Humid Climate | 1 HSW | 9:55-10:55 a.m.

Architects are faced with ever-increasing challenges to achieve sustainable and resilient goals while maintaining the expectations of building performance, including moisture control. This course presents the unique challenges architects must consider when addressing sustainable and resilient design efforts related to building enclosure and HVAC systems in our region. Case studies will demonstrate how the design and construction of the building enclosure and HVAC system influence the ability to achieve these objectives, as well as the potential risks.

Speakers: Charles Allen, Jr., AIA, NCARB, sr. forensic architect, Liberty Building Forensics Group; George Dubose, CGC, CIEC, MRSA, president, Liberty Building Forensics Group

Session W: Optional Lunch Session: Masonry Round Table – Industry Issues | 1.5 HSW

11:10 a.m. -12:40 p.m.

Construction has been impacted in so many ways over the last five years. Material specification, manufacturing and installation have all changed. Masonry is no exception. Our panel will review what masonry has experienced, how it has changed and what the future looks like. Representatives from mining, manufacturing, transportation and construction will be there to present and answer your questions.

Speaker: Chris Bettinger, Oldcastle Coastal and FC&PA

Session X: Pay it Forward: The Benefits of Mentorship at All Ages

1.5 LU | 11:10 a.m.-12:40 p.m.

Mentorship is one person investing their time, experience, and wisdom in the growth of another person. We can all participate, but what does mentorship really look like?

Speakers: Bill Hercules, FAIA, president/CEO, WJH

Health; Carl Sergio, AIA, senior project architect, Interior Architects; Gwendoline Albright Ndikumagenge, Assoc. AIA, LEED GA, Designer 1, Perkins+Will

Session Y: Navigating Your Career Journey | 1 LU | 12:55-1:55 p.m.

Attend this networking session where soon-to-be-licensed, newly licensed architects and mid-career professionals will meet with AIA Florida past presidents and other seasoned architects to discuss lessons learned and steps taken towards project management and all that comes with navigating a successful career.

Session Z: Role of the Architect in Slip, Trip and Fall Accidents 1 HSW | 12:55-1:55 p.m.

This session will address the role of the architect in designing safe paths of travel, and level changes that are ergonomically correct and code compliant. The session will present the Florida Building Code requirements for stairs, steps, ramps and level changes. Highlights will be examples of good and bad choices of materials and designs, as well as what current standards are for coefficient friction.

Speaker: Randy Atlas, FAIA, Ph.D., CCP, CPTED, Atlas Safety & Security Design, Inc.

Session AA: Hurricane Impacts - Lessons Learned 1.5 HSW | 2:20-3:50 p.m.

Florida leads the nation in responding to the ever-increasing intensity of hurricanes. Nothing brings this reality to bear more than the aftermath of Hurricanes Ian and Nicole. Join us for a panel discussion and presentation from members who witnessed the aftermath firsthand, as we look at what to expect and discuss next steps. We will also identify best practice design solutions that withstood the recent deadly storm surge.

Panelists: Joyce Owens, FAIA, RIBA, principal architect, Architecture Joyce Owens LLC; David Corban, AIA, LEED AP, president David Corban Architect, PLLC; Stephanie McPherson, AIA, Studio+; Dr. Ty Patak, AIA, NCARB, CPD, LEED AP, principal, Parker/Mudgett/Smith Architects

Session BB: A Conversation on Bridging the Gap Between Education & Practice | 1.5 LU | 4-5:30 p.m.

With ever-evolving demands on the practice of architecture, while considering the recent impacts of COVID, technology, and a dwindling workforce, we are investigating how to bridge the gap between education and practice. Understanding our responsibility to architectural education, we will host the directors of the schools of architecture from around the state to discuss various options for members to influence the readiness of the next generation.

Moderator: Beverly Frank, AIA, principal BFrank Studio, Inc.

Panelists: Directors of Florida Schools of Architecture

Sunday, July 30, 2023

Session CC: Early Bird: Accommodating Shrinkage in Multi-Story Wood Frame Structures 1 HSW | 7:20-8:20 a.m.

In wood-frame buildings of three or more stories, cumulative shrinkage can be significant and have an impact on the function and performance of finishes, openings, mechanical/electrical/plumbing (MEP) systems, and structural connections. However, as more designers look to wood-frame construction to improve the cost and sustainability of their mid-rise projects, many have learned that accommodating wood shrinkage is very straightforward. This presentation will describe procedures for estimating wood shrinkage and provide detailing options to minimize its effects on building performance.

Speaker: Jeff Peters, PE, CGC, WoodWorks - Wood Products Council

Session DD: Awards Panel Discussion 1.5 HSW | 8:30-10 a.m.

Recipients of 2023 AIA Florida Design & Honor Awards will discuss building systems, building design, materials and methods used in the design process for their award-winning work. Architects will discuss structural systems, site design, sustainability features, interior design, furnishing and finishes. Historic preservation

techniques used in multiple winning projects will also be discussed. Finally, past winners discuss the process for completing successful award entries.

Speakers: 2023 AIA Florida Design Award winners

Session EE: Demystifying the Fellowship & Application Review Workshop | 1.5 LU | 8:30-10 a.m.

Fellowship is the highest membership honor and is bestowed by one's peers in recognition of significant contributions to architecture. This course informs AIA members about the value of the honor itself, the application process, and the support opportunities available to potential candidates. This course also highlights the importance of the College of Fellows as a mentoring body and venue for professional interaction.

Speakers: Natividad Soto, FAIA, LEED APBD+C, president, Ferguson Glasgow Schuster Soto, Inc.; Nathan Butler, FAIA, LEED AP, office director/principal, HKS

Session FF: Advanced FBC: 7th Edition (2020) – Five Walls of the FBC – Guide to Fire Resistance and Fire Protection 2 HSW | FBC 10:15 a.m.-12:15 p.m.

Learn the prescriptive differences between wall ratings (fire resistance), opening protective ratings (fire protection), and how each perform in passive redundant systems. Better understand the specific use of each wall, its opening protectives and applications within the framework of code compliance.

Speaker: David L. Dodge, CSI, CDT, VP-Business & Code Development, McKeon

SPECIAL EVENTS

Be a part of all the amazing special events taking place at this year's convention. In addition to the great continuing education and traditional networking, we have a full range of interactive discussions and workshops specifically designed to help enhance your career.

Wednesday, July 26, 2023

AIA Florida Annual Meeting 1-4 p.m.

Hear speeches from candidates running for leadership positions, participate in the traditional FAPAC parade of checks, get updated on the latest activities taking place through the volunteer committees and learn what's in store for the architecture industry in the future.

Fee: Complimentary

Sponsored by: Collinsworth Insurance

Thursday, July 27, 2023

President's Welcome Reception 5:30-7 p.m.

The traditional kick-off social event of the convention will be hosted by 2023 AIA Florida president Beverly Frank, AIA. Plan to join friends and colleagues at the reception as Frank welcomes all attendees to the convention.

Fee: Complimentary

Sponsored by: USI Insurance

Emerging Professionals Social Hour 7-8 p.m.

Join emerging professionals, associates and students for an opportunity to network and socialize. You will also have the opportunity to get a headshot. Thank you BEHR for sponsoring the social hour.

By invitation only

Sponsored by: BEHR

Fellows' Dinner 7-9:30 p.m.

Fee: \$129

By invitation only

Friday, July 28, 2023

Women in Architecture Breakfast - Leadership Endurance: What I Learned Training for IRONMAN 1 LU | 7-8 a.m.

AIA Florida celebrates women in the profession with this opportunity for networking. Grab your continental breakfast and join the inspirational discussion. Led by fellow architect and IRONMAN competitor Sara Jimenez, Intl. Assoc. AIA, you will hear what endurance in leadership is all about. All are welcome to attend.

Fee: Complimentary

Sponsored by: Collinsworth Insurance

Euro-Wall Systems Golf Tournament 8 a.m.-1 p.m.

Join fellow architects for great networking, friendly competition - and most of all - a fun round of golf. This year's tournament will be held at The Links Course at the Evermore Resort. Just two miles from the Hyatt Regency, this course is Jack Nicklaus' tribute and homage to the famed Old Course at St. Andrews, Scotland, complete with double greens, stone bridges and walls, gorse mounds, burns and pot bunkers as deep as 12 feet—all in the spirit of the true Scottish original.

Fee per person: \$160

Sponsored by: Euro-Wall

Trade Show 2-6:30 p.m.

Visit with vendors displaying and demonstrating their latest products and services to attendees during the 2023 Trade Show. Each year, the trade show provides an important networking venue made even better by complimentary food, drinks and prizes! Thank you to our sponsors and exhibitors who have made this trade show possible.

Fee: Complimentary

Drink and Draw! with Salsa Dancing Reception 6:30-8:30 p.m.

Drink & Draw is an annual favorite, but now it's been given a little spice! Attendees can sketch, win

prizes, and break out their dancing shoes with our salsa dancers.

Fee: Complimentary

Sponsored by: Graphisoft

Schools of Architecture Alumni & NOMA Receptions

7:30-8:30 p.m.

Coming soon! Look for more information on the Florida schools of architecture and NOMA who will host a reception during the convention.

Fee: Complimentary

Saturday, July 29, 2023

AIA Florida Past Presidents' Breakfast 7:30-8:15 a.m.

This year's AIA Florida immediate past president Lourdes Solera, FAIA, will host a special breakfast honoring AIA Florida's past presidents and their guests. Former presidents and their guests are invited to this breakfast.

Fee: Complimentary, AIA Florida past presidents

Spouse/guest, \$40

Architecture Registration Exam (ARE) Review

10:15 a.m.-3:30 p.m.

This seminar will help familiarize attendees with the types of questions asked on each of the six divisions of the ARE exam. Attendees will learn strategies to help them answer the questions to the best of their knowledge. Lunch included.

Fee: Complimentary

Sumi-e and Sake Social Hour 4-5:30 p.m.

In this very popular workshop on sumi-e zen brush painting, you will learn why less is more. Sumi-e, a monochrome painting executed in ink, encompasses energy and spirit. In this art form, you should not be concerned with painting exactly what you see, but instead use your feelings and your experience with the subject. You will learn basic brush strokes, zen philosophy and timeless techniques all while tasting a selection of sake. Fee includes fun, sake tasting, a brush and sumi-e

ink. You will leave with your own zen masterpiece!
Space is limited.

Fee: \$55

Instructor/Host: Don Yoshino, FAIA

AIA Florida Design & Honor Awards Reception and Presentation 6-9 p.m.

Celebrate excellence in architecture and the architects whose work enriches our communities at the 2023 AIA Florida Design & Honor Awards reception and presentation. Guests will enjoy hors d'oeuvres and drinks during the reception. The awards presentation will feature the 2023 Design & Honor Award winners and the announcement of the 2023 People's Choice winner.

Fee: \$90, \$35 for 17 and under

Sponsored by: FC&PA and

Masonry Association of Florida

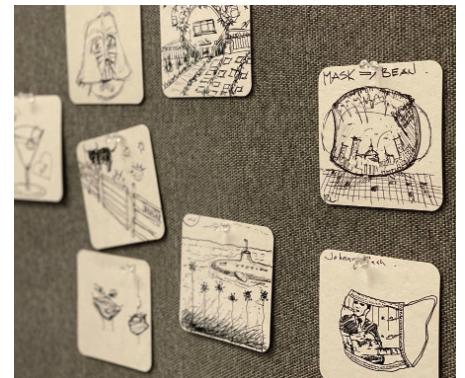

Ongoing Throughout Convention: Fellowship Application Review By Appointment Only

Whether you're just beginning to consider applying for Fellowship or you're ready to submit your application, take advantage of this opportunity to discuss lessons learned, helpful tips and even a review of your application in a one-on-one meeting with an AIA member previously elevated to Fellowship.

By appointment only.

Fee: Complimentary

Thursday, July 27, 2023

Winter Park Library 1-3 p.m. | 2 HSW

The 21st century, world-class campus designed by renowned architect Sir David Adjaye, who also designed the National Museum of African American History and Culture in Washington DC, partnering with local firm HuntonBrady Architects, is located in Winter Park and opened in December 2021. The events center and outdoor areas complete this critical piece of cultural infrastructure, a dynamic space for shared education, recreation, and interaction.

Fee: \$55, includes shuttle and lunch

Friday, July 28, 2023

Masonry Hands On Training – Cavity Wall in Detail 8 a.m.–12 p.m. | 3 HSW

Masonry representatives will go into detail reviewing cavity wall system design and construction in the field. The class will be in the classroom and “hands on” in the Orange Technical College indoor training center. We will be highlighting brick and block placement, reinforcement, weeps and flashing.

Fee: \$55, includes shuttle and lunch

Dr. Phillips Center for the Performing Arts 1-3 p.m. | 2 HSW

The Dr. Phillips Center was designed by Barton Myers as an arts center for everyone and consists of three indoor theaters. The 2700 seat Walt Disney Theater and the 300 seat Pugh Community Theater opened in 2014. The third theater, Steinmetz Hall, one of the top acoustic theaters in the world, opened at the end of 2021. The outdoor plaza serves as Orlando’s living room and outdoor performance space. Come see the inner workings of this amazing architecture.

Fee: \$55, includes shuttle and lunch

Saturday, July 29, 2023

Historic Leu House 1-4 p.m. | 1 HSW

Listed on the National Register of Historic Places, the Leu House Museum and Gardens have become a cultural icon in Orlando. After an oak tree fell through the house in 2017 during Hurricane Irma, and then damage from a second storm, the west wing was renovated, with every restoration effort mirroring the house’s wood frame and its historical precedent. The renovation efforts exposed some surprises that gave this repair project some interesting turns. This tour will provide insights from KMF-Architect Consultants into the challenges and lessons learned when renovating the home, ultimately earning the project a design award from AIA Florida in 2021.

Fee: \$55, includes shuttle and lunch

ABOUT THE HYATT REGENCY GRAND CYPRESS

AIA Florida is pleased to announce the 2023 AIA Florida Convention & Trade Show will be held at The Hyatt Regency Grand Cypress in Orlando. In addition to the unparalleled speakers, sessions and networking, convention attendees will have complimentary access to the amenities at this top tier resort, making a trip to Disney purely optional. Reserve a private cabana and relax poolside while the kids, enjoying a lagoon-style pool. Grab a bite to eat at one of the three on-site restaurants or at the grab and go market. Tee off from the award-winning golf course, hit the gym with four Peleton bikes, or pamper yourself at the full-service spa. If a trip to Disney is still a must, shuttles to theme parks are also free.

RESERVATIONS

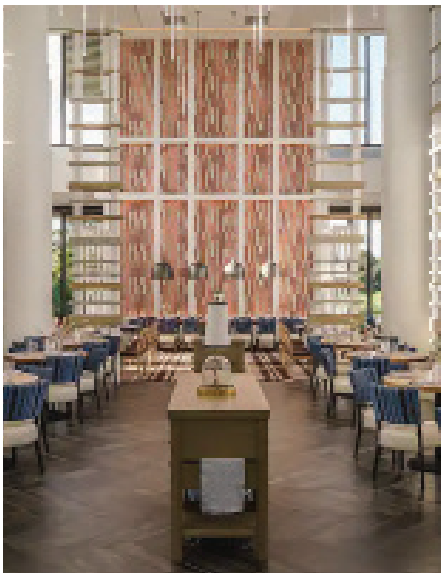

Room Rate: \$185* plus tax, per night.
Hotel Cutoff Date: July 10 or until room block sells out.

***This special rate is only available until July 10 or until rooms in our block sell out, at which time reservations are subject to availability and at the hotel's prevailing room rate.**

To book a room, use the QR code below, or call: (800) 233-1234 and mention you are with AIA Florida or the Florida Association of the American Institute of Architects.

PARKING RATES:

Guests staying at the resort receive a discount for self-parking at \$10 per car, per day and \$40 valet parking.

IMPORTANT CONVENTION INFORMATION

REGISTRATION

Each attendee, including spouses and guests, pays a registration fee. The registration fee includes tickets to the President's Reception, Drink and Draw! and Salsa Dancing, the Trade Show, general sessions (architects are given priority on CE sessions), various networking events and daily continental breakfasts and beverage breaks.

Badges must be worn at all times during the convention.

Convention registrants must register for CE sessions. If you have already registered for the convention, you must return to your registration and choose your sessions. All continuing education sessions are offered on a first-come first-served basis. Changes will be made on-site based on availability. Tickets are required for all social events, lunches, activities and tours, including children where applicable.

CANCELLATION POLICY

Registration or event ticket cancellations must be submitted in writing and received by the AIA Florida office by 5 p.m. Eastern, July 12, to receive a full refund. No refund requests for registration or event tickets received after 5 p.m. Eastern on July 12 will be granted without a documented hardship. Following a review, a refund may be granted less a \$75 processing fee.

Registrations may be transferred to another person. No verbal or phone requests for cancellations or transfers will be taken. All requests must be in writing. For additional policies, scan the QR code for AIA Florida's website.

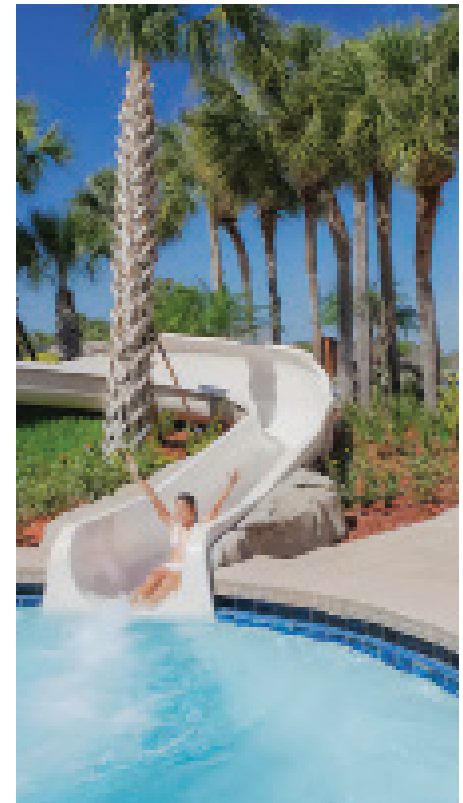

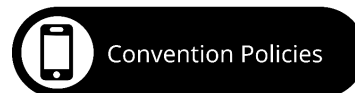

CONSENT TO USE PHOTOGRAPHS

By attending an AIA Florida event, you grant AIA Florida permission to use your name, image

and/or voice in any of AIA Florida's electronic, print or multimedia publications and agree that you will make no monetary or other claim against AIA Florida relating to this use of your name, image and/or voice. Minors will not be photographed, videoed or recorded, or their images or voices used by AIA Florida without the written consent of parents or legal guardians.

QUESTIONS?

Call the AIA Florida office at (850) 222-7590 or email Wendy Johnson at wjohnson@aiafla.org or Hilary Gill at hgill@aiafla.org.

REGISTRATION FEES AND INFORMATION

To register, go to www.aiafla.org or scan the QR code above.

To request a paper registration form or for assistance registering, contact Hilary Gill at AIA Florida at hgill@aiafla.org or call (850) 222-7590.
