AIA Citizen Architect Leadership Program: Gubernatorial Appointment Program (GAP)

In an effort to grow the influence of the architectural profession, AIA Florida has developed the Gubernatorial Appointment Program (GAP) to help place architects in positions of influence within our communities.

The state of Florida currently has greater than 900 appointed positions on various boards and committees around the state. These appointments are awarded by the governor's office throughout the year as seats become vacant.

The American Institute of Architects

AIA Florida

F (850) 224-8048

www.aiafla.org

AIA Florida has identified more than 250 positions for which architects could provide key insight and leadership. These vary from state regulatory & code boards, community/regional development boards to local cultural and arts boards. AIA Florida's mission is to position architects to lead the shaping of Florida's future. To that end, it is vital that the profession be represented on these boards in order to provide leadership and guidance in all aspects of business that affect the built environment.

The toolkit included in this package provides each component with all pertinent information regarding each appointed position in addition to an example application and links to the Governor's appointment applications. Please note the following:

- The appointed positions are divided into tiers based on priority level for architects. The High Priority tier include statewide and regional appointments, Medium Priority tier appointments include county level authorities and boards, and Low Priority tier appointments include local municipal and university boards.
- It is intended that interested parties will coordinate with AIA Florida on statewide, regional and county appointments (High and Medium Priority) to complete all submittal information. On all additional appointments, interested parties are advised to pursue applications on the local level with potential support of the local components.
- After reviewing the attached application as generated by the state of Florida, please submit your resume along with responses for

application questions 16-19; as well as responses to questionnaire questions 17-30, to AIA Florida for review.

- Following the review and comment process, applicants will complete the full online application and questionnaire. AIA Florida will then advocate for qualified state, regional, and county appointment applicants with the Office of the Governor.
- Applicants are encouraged to monitor progress of their application with state-level political leadership in their district. Where appropriate, applicants should also coordinate with AIA Florida in reaching aides in the Governor's office. All follow up should be conducted with regularity at appropriate intervals. Applicants should use professional judgement to determine a respectful engagement tone and timeline.
