## James Pfeiffer AIA LEED AP

**bnim** PRINCIPAL

James Pfeiffer is a Principal at BNIM whose strengths are centered around design, culture, and people. He is an award-winning designer and collaborator with a broad range of notable, significant project experience including higher education projects, cultural facilities, office buildings, adaptive reuse and civic spaces.

His experience includes the new Dr. E.J. and Margaret O'Brien Hall at Marquette University; the Pacific Center Campus Amenities Building in San Diego, CA; the East End Transformation at Washington University in St. Louis; the Fine Arts + Design Studios and the Career and Technical Education Center projects, both at Johnson County Community College; and the creation of a high performance, conceptual framework for the redevelopment of the Edmonton City Centre Airport, in collaboration with Snøhetta.

James' leadership and approach to human-purposed integrated design has resulted in quantifiable positive outcomes for his clients, from energy and water efficiency to improved occupant health and increased user productivity. His work has been recognized for design excellence and sustainable stewardship from national entities like the American Institute of Architects, Architectural Record, and the US Green Building Council. These honors include the AIA Regional and Urban Design Award (Washington University in St. Louis East End Transformation) and The Chicago Athenaeum: Museum of Architecture & Design & The European Centre for Architecture Art American Architecture Award (Pacific Center Campus Development).

James has presented both regionally and nationally at conferences for organizations including the American Institute of Architects (AIA) and the Society for College and University Planning (SCUP) and has served as an adjunct professor and co-teacher for a comprehensive design studio at Kansas State University. He has also frequently served as a guest design critic for the University of Kansas, Kansas State University, the Kansas City Art Institute, and the Kansas City Design Center.
